(Continued from previous page)

La siguiente tabla establece una estimación del importe de capital y del interés adeudado al momento del vencimiento sobre los bonos a emitirse de aprobarse la Proposición A, y todas las obligaciones pendientes del Distrito garantizadas y pagaderas con fondos provenientes de impuestos ad valorem.

Importe de capital de los Bonos a autorizarse - \$2,000,000

Interés estimado de los Bonos a autorizarse(1) - \$420,750

Capital e interés combinados estimados requeridos para pagar a tiempo y en su totalidad los Bonos a autorizarse(1) - \$2,420,750

Capital con respecto a las deudas pendientes existentes del Distrito (al 16 de febrero de 2023) - \$9,325,000

Interés restante con respecto a las deudas pendientes existentes del Distrito (al 16 de febrero de 2023) - \$3,222,418.78

Capital e interés combinados para pagar a tiempo las deudas pendientes del Distrito (al 16 de febrero de 2023) - \$12,547,418.78

(1) El interés sobre los bonos propuestos se calculó a una tasa del 4.00% según la condición del mercado al 16 de febrero de 2023 y, por lo tanto, el interés a pagar sobre los bonos propuestos puede ser menor o mayor que los montos establecidos anteriormente en función de la condición del mercado al momento de la venta de los bonos propuestos.

Con base en la información y las suposiciones proporcionadas en la tabla anterior, el aumento anual máximo estimado en el monto de impuestos que se impondría a una residencia familiar en el Distrito avaluada en \$100,000 gravables para pagar los bonos propuestos, de ser aprobados, será de \$0.00. Este estimado supone un crecimiento anual promedio de la valoración catastral gravable del Distrito del 0% anual en los años del 2023 al 2035. El Distrito supone que los bonos propuestos se emitirán en una amortización que, en general, producirá niveles relativamente estables para servicio de deuda cada año, considerando el calendario de amortización de la deuda existente del Distrito.

ELECCIÓN ESPECIAL DEL DISTRITO ESCOLAR INDEPENDIENTE DE ROBERT LEE
6 de mayo de 2023

...Catfish Stocking

(Continued from page 2)

“Catfish are fun and easy to catch for anglers of all ages and experience levels. If you’ve never fished before, these are the perfect places to get started. If you are an experienced angler, these are the perfect places to introduce fishing to a friend or family member.”

Each lake will receive channel catfish every two weeks through the end of October — with a brief pause during the heat of August — to ensure there are plenty of angling opportunities for everyone throughout the spring, summer and early fall.

Neighborhood Fishin’ lakes are located in city and county parks with ample parking, restrooms, lighting and other recreational amenities, in addition to fishing.

Anglers can keep up to five catfish of any size per day. At some locations, cleaning tables are available nearby to make it easy for families to clean their catch. Children under 17 fish for free, but adults who fish must have a fishing license. Fishing licenses can be purchased for as little as \$11 for “one-day, all-water” access. All proceeds go toward management and conservation of the fish and their habitats.

To find the Neighborhood Fishin’ Lake near you, find stocking locations or to sign up for email updates, visit www.neighborhoodfishing.org.

Neighborhood Fishin’ is supported by the Texas Parks and Wildlife Foundation through donations from Phillips 66 as well as the local municipalities across the state.

On This Day in Texas History
April 14, 1689

On this day in 1689, Alonso De León, Spanish governor of Coahuila, discovered and named the Guadalupe River at the approximate future site of Victoria, while leading his fourth and final expedition to find and destroy the French settlement at Fort St. Louis. De León, an early advocate of establishing missions along the Texas frontier, blazed much of the Old San Antonio Road in the course of his expeditions. Eight days after discovering the Guadalupe, he and his party of 114 men, which included Damián de

Egg Hunt! Robert Lee Care Center hosted an Easter Egg Hunt for the children of Coke County. The residents enjoyed watching the kids hunt eggs and the families had a good time visiting with the residents.

Play Ball! T-ball season in Coke County kicked off on Saturday, April 1, in Bronte. If you need a dose of cuteness, visit the ball field by the pavilion on Saturday mornings to see the action.

Massenet, came upon the ruins of the French settlement on the banks of Garcitas Creek. De León left Texas for the last time in 1690 and died in Coahuila a year later, probably around the age of fifty-two. In 1721 the Spanish built Nuestra Señora de Loreto de la Bahía Presidio on the site of Fort St. Louis.

April 14, 1933

On this day in 1933, the Panhandle-Plains Historical Museum, the first state museum in Texas, opened in Canyon. The museum was an outgrowth of the Panhandle-Plains Historical Society, founded in 1921 by faculty and students of West Texas State Teachers College, and is a cooperative effort between the society, which owns and controls the collections, and the State of Texas, which provides and maintains the facilities through West Texas A&M University and the Texas A&M University Board of Regents. In addition to its major anthropology, geology, paleontology, and natural history collections, the museum has extensive materials on the ranching industry, the Plains Indians, and the oil and gas industry, and galleries devoted to American and European art with an emphasis on such Texas

artists as Frank Reaugh and Harold Bugbee.

April 14, 1935

On this day in 1935 a great dust storm covered the Texas Panhandle town of Pampa, inspiring Woody Guthrie to write the song “So Long, It’s Been Good To Know You.” Guthrie had moved to Pampa in 1929. Performing with bands at nightclubs and radio stations in the Panhandle, he found his calling as lyricist and musician and began developing skills that

later gained him a reputation as a writer, cartoonist, and down-home philosopher. He married a Pampa girl, Mary Jennings, in 1933 and experienced the pain of the Dust Bowl and the Great Depression, sources of his many songs that appealed to his fellow sufferers. When the great storm of April 14, 1935, occurred, some Pampans thought that the end of the world was upon them and that there was just time for final goodbyes. Tired of dust and poverty, Guthrie left for Los Angeles in 1937.
